You do not register your drivers, they must do it themselves and you can share the video we are sharing with you.

You must do an annual query on all your current drivers. This will cost you \$1.25 per query. See the shared video on how to purchase the queries.

We can perform those queries for you at a cost of \$10.00 per driver, but you will still get charged the \$1.25

You may not hire any new drivers unless they are registered with the FMSCA clearinghouse. You must then also query the database, along with the old way of verifying past records

- Beginning 2020 you must go back three years
- Beginning 2021 you must go back two years
- Beginning 2023 you must go back one year
- Beginning 2024 you just have to use the clearinghouse

We can perform those queries for you at a cost of \$25.00 per driver, but you will still get charged the \$1.25. Beginning 2024, our charge will drop to \$10.00.
